

Course: Independent Directed Studies

Course Format: Online

Credits: 4

Description: Independent Directed Studies (IDS) allows students—under the guidance and with the support of a teacher—to develop their own course around subjects of their interest. IDS does not take the place of Ministry required courses (such as PE 10), but it does allow students to design and build their own course and receive elective credits for it. These credits count towards the minimum number of elective credits students need for graduation. Please contact our IDS Coordinator Mr D. Sturn for more information: sturn_dana@surreyschools.ca

Recommended Prerequisite: None

Resources: Online course materials
