

Course: Science 9

Course Format: Online

Description: All Students take Science 9 as a recommended prerequisite to Science 10. Through relevant studies, students will acquire specific knowledge, skills and attitudes towards science.

Science 9 students investigate topics from Biology, Chemistry, Physics and Earth Science.

The new Science 9 curriculum has been designed around four big ideas:

- Cells are derived from cells.
- The electron arrangement of atoms impacts their chemical nature.
- Electricity is the flow of electrons.
- The biosphere, geosphere, hydrosphere, and atmosphere are interconnected, as matter cycles and energy flows through them.

Recommended Prerequisite: Science 8
